

reach 93 percent of GDP this year, a new high. Economic experts predict that unprecedented debt level could squash at least 1 million more jobs. The news came the same day the Labor Department reported that nearly all of the new jobs were temporary hires at the Census and some of them rehires at that.

Make no mistake, the out-of-control government spending, coupled with the heavy debt, prevent us from creating the quality jobs and the bright future America Americans want, need, and deserve.

It's time to get our fiscal house in order, once and for all. The stimulus, the bailouts, government-run health care: Enough is enough.

NO MORE BAILOUTS

(Mr. KAGAN asked and was given permission to address the House for 1 minute.)

Mr. KAGAN. Mr. Speaker, last week I listened to families in Green Bay, Marinette, Niagara, Crandon, Wausaukee, Crivitz, Minocqua, Woodruff, Waupaca, Shawano, Greenville, and Appleton. Everywhere I went people were saying the same thing, and they're playing by the rules, playing and living by the rules. They're working hard and paying their bills on time. It's the Wisconsin way.

They've asked me to deliver this message to Washington: No more bailouts for Wall Street corporations; no bailouts of Big Oil companies who have determined our energy policy for decades. And to British petroleum, we say, You broke it, you fix it.

On May 19, I gave British Petroleum president Lamar McKay an opportunity to live up to his corporate word immediately, not 10 years from now, when I asked him to put \$25 billion into the United States Treasury to begin cleaning up the worst environmental disaster in our Nation's history, but when asked to take responsibility, he took a pass.

People in Wisconsin believe in responsibility, both personal and corporate. People in Wisconsin want BP to pay up front, and that is why I'm introducing the Oil Spill Responsibility Act of 2010, requiring immediate payment of \$25 billion by BP.

ISRAEL HAS A RIGHT TO DEFEND ITSELF

(Mr. PENCE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PENCE. As a member of the House Foreign Affairs Committee, I have been a strong supporter of the U.S.-Turkish alliance. I've been to Ankara, Turkey. I have met with officials there. I knew the President before he was President of Turkey.

So you can imagine my dismay, Mr. Speaker, with the recent aggressive action by Turkey toward our most cher-

ished ally, Israel. The complicity of Turkey in launching a flotilla to challenge the blockade in Gaza, the ensuing violence that occurred, the grievous loss of life is deeply troubling to those of us who have supported the U.S.-Turkish alliance in the past.

A few things need to be said. We grieve the loss of life, but Israel has a right to defend itself, and Turkey must know that America will stand with Israel in her inviolate right to defend herself. There is no humanitarian crisis in Gaza. Ten thousand tons of food and medical supplies are transferred into Gaza every single week, and the blockade has saved lives.

Hamas used the Gaza strip to launch vicious and brutal attacks, thousands of rockets on civilians. It costs lives in Gaza. It costs lives in Israel. Turkey needs to count the cost. Turkey needs to decide whether its present course is in its long-term interests, but America will stand with Israel.

CELEBRATING THE LIFE OF REV. LEMUEL YAZZIE

(Mrs. KIRKPATRICK of Arizona asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. KIRKPATRICK of Arizona. Mr. Speaker, I rise to celebrate the life of a true American hero. On May 28, we lost another of the last surviving Navajo code talkers: Reverend Lemuel Yazzie of Whitecone, Arizona.

Navajo code talkers saved the lives of countless Americans during World War II and the Korean War by using Dine to help the Marines communicate without risk of interception by the enemy. Reverend Yazzie served bravely and honorably as part of this legendary group.

After leaving the military, he kept giving back, serving for years as a missionary, staying involved with community work, and helping organize a committee to aid workers suffering from the effects of uranium exposure.

An active member of the Navajo Cold Talker Association, Reverend Yazzie was dedicated to recognizing all Dine fighting men and women have done for this country. We must follow his lead.

In his honor, I will continue my efforts to keep our promises to veterans in Navajo Country and across the Indian Nation.

URGING U.S. ACTION AND INTERNATIONAL AGREEMENT ON OCEAN ACIDIFICATION

Mr. INSLEE. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 989) expressing the sense of the House of Representatives that the United States should adopt national policies and pursue international agreements to prevent ocean acidification, to study the impacts of ocean acidification, and to address the effects of ocean acidification on marine ecosystems and coastal economies.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

H. RES. 989

Whereas the world's oceans have absorbed more than a quarter of the carbon dioxide released into the atmosphere since the start of the Industrial Revolution;

Whereas the increased absorption of carbon dioxide by the world's oceans alters the form of nutrients and chemicals in the oceans and results in ocean acidification;

Whereas ocean acidification threatens carbonate-forming species such as coral, shellfish, and marine plankton, and may cause major ripple effects throughout marine ecosystems and food webs, ultimately affecting the largest marine organisms and many commercial fisheries;

Whereas ocean acidification will affect the growth, reproduction, disease resistance, and other biological and physiological processes of many marine organisms;

Whereas ocean acidification will be accelerated in Arctic waters because carbon dioxide is more soluble in colder waters and
